

The Editor for this Issue is Jim Jack (ECLO Conference and Events Manager)

Using Wireless Technologies for Context Sensitive Education and Training (CONTSENS)

Dissemination Conference

ECLO, held it's 16th International Conference entitled "Vitality in Organisations - Fit Until the Finish" on Thursday 18th and Friday 19th June, 2009 at KPC Groep's HQ in Hertogenbosch, Netherlands. Delegates representing nine European countries were present.

With the support of E.C.L.O., the Contsens project team had a dedicated stream during the event to disseminate the deliverables of the project. Four project members presented and also participated in "Speakers Knowledge Cafés" where a more in-depth and less formal dialogue can take place; An exhibition space was also provided where project material and brochures were displayed and made available to the delegates.

The Conference Sessions

Context Sensitive Location Based Training – A Corporate Case-Study	Judy Nix (Ericsson)
Steps Towards an Ontology Based Learning Environment	Gabor Kismihok (Corvinus Technology Transfer Centre)
A Workshop Demonstrating the Benefits of Context and Location Sensitive Training	Carl Smith (London Metropolitan University)
Performance-Centred Solution for Context Sensitive and Location Based Mobile Learning	Nevena Mileva (University of Plovdiv)

Speakers Awards

The project sessions were very well received reflected in the award to Judy Nix of Ericsson, of the "ECLO Practitioner Award" for the most pioneering case study. Gabor Kismihok of Corvinus University also should be congratulated as a creditable runner-up in the category "ECLO Academic Award" for the most ground breaking doctoral / academic contribution
