

# MX-ONE™ Telephony System – Telephony Switch I & M News course

Course Description

1551-EN/LZU102 1518 Uen

# MX-ONE™ Telephony System - Telephony Switch I & M News Course

## Overview

The purpose with this product is to inform service technicians about the new functions and hardware released in the MX-ONE™ Telephony Switch. Opportunity is also given to practical try-out of the new functions.

## Product revision history

This is a new course.

## Target audience

The course is aimed at service technicians who are experienced in maintaining the MD110 up to the BC12.1 release.

## Prerequisites

Thorough knowledge of the MD110 BC11 or BC12 releases.

## Main Objectives

The delegates shall – after the course – be able to use, initiate and maintain the items in the contents list.
