

# Instruction for participating online in Telefonaktiebolaget LM Ericsson (publ)'s Annual General Meeting 2022

## PRACTICAL INFORMATION FOR ONLINE PARTICIPATION

### Notice of participation

For participation in the Annual General Meeting (the "AGM") online, the instructions regarding notice of participation stated in the notice convening the AGM shall be considered. Your participation card containing your unique username and password will be sent to you by post or email (where applicable) after your notice of participation in the AGM has been received.

### Proxies

Shareholders who wish to be represented by proxy in the AGM online must give notice of participation and submit a power of attorney in accordance with the instructions stated in the notice convening the AGM. Your participation card with your unique username and password will then be distributed to the representative as soon as the notice to participate in the AGM and a valid power of attorney has been received and approved, to the address of the representative stated in the notice of participation.

### Assistants

Any assistants (no more than two) shall be registered for participation in the same way as instructed in the notice convening the AGM. Login details for the registered assistants will be sent to the shareholder to forward to each assistant.

### Nominee-registered shares

In order to be entitled to participate in the AGM, a shareholder whose shares are registered in the name of a nominee must, in addition to giving notice of participation in the AGM, register its shares in its own name so that the shareholder is listed in the presentation of the share register as of Monday, March 21, 2022. Such re-registration may be temporary (so-called voting rights registration), and request for such voting rights registration shall be made to the nominee, in accordance with the nominee's routines, at such a time in advance as decided by the nominee. Voting rights registrations that have been made by the nominee no later than Wednesday, March 23, 2022 will be taken into account in the presentation of the share register.

## ONLINE AGM

The online AGM is administered by Euroclear Sweden and the service provider Lumi Global. Shareholders participating in the AGM online will be able to listen to a live webcast of the meeting, ask questions and vote.

Identification of shareholders is made by using the unique username and password assigned to each shareholder on the participation card distributed to each shareholder after their notice of participation in the AGM online.

It is possible to participate online through a computer, a smartphone or another internet connected device such as a tablet, updated with the latest software of the operating system, etc. by downloading an app or using the browser (see further instructions below).
