Item 11

Long-Term Variable Remuneration Program 2012 (LTV 2012) including the Board of Directors' proposal for resolutions on implementation of an all employee Stock Purchase Plan, a Key Contributor Retention Plan and an Executive Performance Stock Plan and, under each plan respectively, transfer of treasury stock, directed share issue and authorization for the Board of Directors to decide on an acquisition offer

The LTV program is an integral part of the Company's remuneration strategy, in particular the Board of Directors wishes to encourage all employees to become and remain shareholders and the leadership to build significant equity holdings. Following the Board of Directors' annual evaluation of total remuneration and ongoing programs[1], it proposes to make no changes to the structure of the Ericsson's Long-Term Variable Remuneration Program.

It is anticipated that the LTV 2012 will require up to 31.7 million shares, corresponding to a dilution of up to 0.99 percent of outstanding shares, at a cost between SEK 1,092 million and SEK 2,080 million unevenly distributed over the years 2012–2016. The number of shares covered by ongoing programs as per 31 December, 2011, amounts to approximately 49 million shares, corresponding to approximately 1.53 percent of the number of outstanding shares.

Three plans

The LTV 2012 builds on a common platform, but consists of three separate plans.

The Stock Purchase Plan is an all employee plan and is designed to create an incentive for all employees to become shareholders. The aim is to secure commitment to long-term value creation throughout Ericsson.

The Key Contributor Retention Plan is part of Ericsson's talent strategy and is designed to ensure long term retention of top-talent with critical skills vital to Ericsson's future performance. Up to ten percent of the Company's employees are defined as "key contributors", based on a rigorous selection process incorporating elements such as individual performance, possession of critical skills and future potential. The Remuneration Committee of the Board of Directors monitors the selection process and nominations for bias of factors such as seniority, gender, age and frequency of award.

The Executive Performance Stock Plan is designed to encourage long-term value creation in alignment with shareholders' interests. The plan is offered to a defined group of senior managers, up to 0.5 percent of the total employee population. The aim is to attract, retain and motivate executives in a competitive market through performance-based share related incentives and to encourage the build-up of significant equity stakes.

[1] See more about the Board of Directors' evaluation in the Remuneration Report attached to the 2011 Annual Report.

Exhibit 6

The Executive Performance Stock Plan 2011 introduced three new performance measures of Net Sales Growth, Operating Income Growth and Cash Conversion to better reflect the business strategy and long term value creation of the Company. The Executive Performance Stock Plan 2012 includes the same performance criteria for the period 2012 – 2014. The strong Net Sales for the base year 2011 has been taken into account when defining the Net Sales Growth target.

The three performance criteria for the Executive Performance Stock Plan 2012 are:

- Net Sales Growth: Up to one third of the award will vest if the compound annual growth rate of consolidated net sales is between 2 and 8 percent comparing 2014 financial results to 2011, which corresponds to consolidated sales of SEK 241 billion and SEK 286 billion for the financial year 2014.

- Operating Income Growth: Up to one third of the award will vest if the compound annual growth rate of consolidated operating income is between 5 and 15 percent comparing 2014 financial results to 2011, which corresponds to operating income of SEK 20.7 billion and SEK 27.2 billion for the financial year 2014.

- Cash Conversion: Up to one third of the award will vest if cash conversion is at or above 70 percent during each of the years 2012-2014 and vesting one ninth of the total award for each year the target is achieved.

Financing

The Board of Directors has considered different financing methods for transfer of shares to employees under the LTV 2012, such as transfer of treasury stock and an equity swap agreement with a third party.

The Board of Directors considers that a directed issue of C shares, followed by buy- back and transfer of treasury stock as the most cost efficient and flexible method to transfer shares under the LTV 2012.

The Company’s current holding of treasury stock is not sufficient for the carrying out of the LTV 2012. Therefore, the Board of Directors proposes a directed share issue and buy back of shares as further set out below under heading “Proposals”. Under the proposed transactions, shares are issued at the share’s ratio value and bought back as soon as the shares have been subscribed for and registered. The purchase price paid by the Company to the subscribers equals the subscription price and an additional market interest for a two week period between the payment of the subscription price and the buy-back of shares. The Company’s costs for acquiring the shares are estimated to amount to less than 0.6 öre (SEK 0.006) per share.

The procedure of issuance and buy-back of shares for the Company’s long-term variable remuneration programs has previously been decided by the Annual General Meetings of Shareholders in 2001, 2003, 2008 and 2009.

Since the costs for the Company in connection with an equity swap agreement will be significantly higher than the costs in connection with transfer of treasury stock, the main alternative is that the financial exposure is secured by transfer of treasury stock.

Exhibit 6

Costs

The total effect on the income statement of the LTV 2012, including financing costs, is estimated to range between SEK 1,092 million and SEK 2,080 million unevenly distributed over the years 2012-2016. The costs constitute 3.5 percent of Ericsson's total remuneration costs 2011, including social security fees, amounting to SEK 59 billion.

The calculations are conservative and based on assumptions of present participation rate in the Stock Purchase Plan and full participation in the Key Contributor Retention Plan and the Executive Performance Stock Plan, at maximum contribution levels and with maximum vesting levels for the latter plan.

Costs affecting the income statement, but not the cash flow

Compensation costs, corresponding to the value of matching shares transferred to employees, are estimated to range between SEK 990 million and SEK 1,275 million, depending on the fulfilment of the performance targets of the Executive Performance Stock Plan.[2] The compensation costs are distributed over the LTV 2012 period, i.e. 2012-2016.

Social security charges as a result of transfer of shares to employees depend on the performance against the Executive Performance Stock Plan targets and based on an assumed average share price at matching between SEK 30 and SEK 175, the costs are estimated to range between SEK 102 million and SEK 805 million. The social security costs are expected to occur mainly during 2015-2016.

Costs affecting the income statement and the cash flow

Plan administration costs have been estimated to SEK 10 million, distributed over the LTV 2012 period, i.e. 2012-2016.

The administration cost for transfer of shares by way of an equity swap agreement is estimated to approximately SEK 202 million, compared to approximately SEK 200,000 for using new issued and acquired shares in treasury.

Dilution

The Company has approximately 3.3 billion shares in issue. As per 31 December, 2011, the Company held 63 million shares in treasury. The number of shares covered by ongoing programs as per 31 December, 2011, amounts to approximately 49 million shares, corresponding to approximately 1.53 percent of the number of outstanding shares. In order to implement the LTV

[2] The compensation costs for an alternative Key Contributor Retention Cash Program may vary depending on the development of the stock price during the qualifying period. This has been disregarded in the calculations since these costs represent a minor part of the overall compensation costs.

Exhibit 6

2012, a total of up to 31.7 million shares are required, which corresponds to approximately 0.99 percent of the total number of outstanding shares. The effect on important key figures is only marginal.

Proposals

The Long-Term Variable Remuneration Program 2012

The Board of Directors proposes that the Annual General Meeting resolve on the implementation of (1) a Stock Purchase Plan, (2) a Key Contributor Retention Plan, and (3) an Executive Performance Stock Plan.

In order to implement the LTV 2012, the Board of Directors proposes that no more than in total 26,200,000 shares of series B in Telefonaktiebolaget LM Ericsson (hereinafter referred to as "the Company" or "Ericsson") may be transferred to employees in the Ericsson Group and, moreover, that 5,500,000 shares may be sold on NASDAQ OMX Stockholm in order to cover, inter alia, social security payments.

The Company's current holding of shares in treasury is not sufficient for the carrying out of the LTV 2012. Therefore, the Board of Directors proposes a directed share issue of in total 31,700,000 shares of series C to AB Industrivärden and / or Investor AB or subsidiaries of these companies, with a subscription price equivalent to the ratio value of the share (SEK 5). Furthermore, it is proposed that the Board be authorized to decide on a directed offer to acquire all shares of series C at a price in the interval SEK 5 to SEK 5.10 per share. Following the acquisition of all shares of series C, these shares will be converted into shares of series B, in accordance with the Articles of Association, thereafter to be transferred according to the proposals.

The Board of Directors proposes that the Annual General Meeting resolve in accordance with the proposals set out below.

Item 11.1 Implementation of the Stock Purchase Plan

All employees within the Ericsson Group, except for what is mentioned in the fourth paragraph below, will be offered to participate in the Stock Purchase Plan.

Employees who participate in the Stock Purchase Plan shall, during a 12 month period from the implementation of the plan, be able to invest up to 7.5 percent of gross fixed salary in shares of series B in the Company on NASDAQ OMX Stockholm or in ADSs on NASDAQ New York. The CEO shall have the right to invest up to 10 percent of gross fixed salary and 10 percent of short term variable remuneration for purchase of shares.

If the purchased shares are retained by the employee for three years from the investment date and the employment with the Ericsson Group continues during that time, the employee will be given a corresponding number of shares of series B or ADSs, free of consideration.

Exhibit 6

Participation in the Stock Purchase Plan presupposes that such participation is legally possible in the various jurisdictions concerned and that the administrative costs and financial efforts are reasonable in the opinion of the Company.

Participation in the Key Contributor Retention Plan presupposes that such participation is legally possible in the various jurisdictions concerned and that the administrative costs and financial efforts

Exhibit 6

are reasonable in the opinion of the Company. The Board of Directors shall however be entitled, but not obligated, to arrange for an alternative cash plan for key contributors in specific jurisdictions, should any of the aforementioned presuppositions prove not to be at hand. In the event that the required majority is not reached under item 11.5 above, the financial exposure of the Key Contributor Retention Plan shall be hedged by the Company entering into an equity swap agreement with a third party, under which the third party shall, in its own name, acquire and transfer shares in the Company to employees covered by the Key Contributor Retention Plan.

Item 11.7 Implementation of the Executive Performance Stock Plan

In addition to the regular matching of shares pursuant to the Stock Purchase Plan described above, senior managers, up to 0.5 percent of employees (presently approximately 500, although it is anticipated that the number of participants will be significantly lower) will be offered an additional matching of shares, free of consideration, within the Executive Performance Stock Plan.

If the shares purchased in accordance with the terms and conditions of the Stock Purchase Plan are retained by an employee for three years from the investment date and the employment with the Ericsson Group continues during that time, the employee will be entitled to the following matching of shares, free of consideration, in addition to the regular matching of one share:

Exhibit 6

- The President may be entitled to an additional performance match of up to nine shares for each one purchased.

- Other senior managers may be entitled to an additional performance match of up to either four or six shares for each one purchased.

The nomination of senior managers will be on the basis of position, seniority and performance at the discretion of the Remuneration Committee, which will approve participation and matching share opportunity.

The terms and conditions of the additional performance match under the Executive Performance Stock Plan will be based on the outcome of three targets, which are independent of each other and have equal weighting:

- Up to one third of the award shall vest provided the compound annual growth rate (CAGR) of consolidated net sales between year 0 (2011 financial year) and year 3 (2014 financial year) is between 2 and 8 percent, which corresponds to consolidated sales of SEK 241 billion and SEK 286 billion for the financial year 2014. Matching will begin at a threshold level of 2 percent CAGR and increase on a linear scale to full vesting of this third of the award at 8 percent CAGR.

- Up to one third of the award shall vest provided the compound annual growth rate (CAGR) of consolidated operating income between year 0 (2011 financial year) and year 3 (2014 financial year) is between 5 and 15 percent, which corresponds to consolidated operating income of SEK 20.7 billion and SEK 27.2 billion for the financial year 2014. Matching will begin at a threshold level of 5 percent CAGR and increase on a linear scale to full vesting of this third of the award at 15 percent CAGR.

- Up to one third of the award will be based on the cash conversion during each of the years during the performance period, calculated as cash flow from operating activities divided by net income reconciled to cash. One ninth of the total award will vest for any year, i.e. financial years 2012, 2013 and 2014, if cash conversion is at or above 70 percent.

The Board of Directors considers that long-term value creation will be reflected in the success of these targets, aligning executives with long-term shareholder interests. There will be no allocation of shares if none of the threshold levels have been achieved, i.e. CAGR is less than 2 percent for net sales and less than 5 percent for operating income, and a 70 percent cash conversion has not been achieved during the performance period. The minimum matching at the threshold levels is 0. The maximum number of performance matching shares - 4 shares, 6 shares and 9 shares respectively - will be allocated if the maximum performance levels of CAGR of 8 percent for net sales and 15 percent for operating income have been achieved, or exceeded, and a cash conversion of 70 percent or more has been achieved each year during the period.

Before the number of performance shares to be matched are finally determined, the Board of Directors shall examine whether the performance matching is reasonable considering the Company’s financial results and position, conditions on the stock market and other circumstances, and if not, as determined by the Board of Directors, reduce the number of performance shares to be matched to the lower number of shares deemed appropriate by the Board of Directors. When

Exhibit 6

undertaking its evaluation of performance outcomes the Board of Directors will consider, in particular, the impact of larger acquisitions, divestitures, the creation of joint ventures and any other significant capital event on the three targets on a case by case basis.
