

Item 16

Guidelines for remuneration to Group Management

The Board of Directors proposes that the Annual General Meeting of shareholders 2020 resolve on the following guidelines for remuneration to Group Management. Compared to the guidelines resolved by the Annual General Meeting of shareholders 2019, the guidelines have been updated to comply with the requirements of the European Union Shareholder Rights Directive II ("SRD II") as transposed into Swedish law.

Guidelines for remuneration to Group Management

Introduction

These Guidelines for Remuneration to Group Management (the "**Guidelines**") apply to the Executive Team of Telefonaktiebolaget LM Ericsson (the "**Company**" or "**Ericsson**"), including the President and Chief Executive Officer (the "**President and CEO**") ("**Group Management**"). These Guidelines apply to remuneration agreed and changes to previously agreed remuneration after the date of approval of the Guidelines and are intended to remain in place for four years until the Annual General Meeting of shareholders 2024. For employments outside of Sweden, due adaptations may be made to comply with mandatory local rules or established local practices. In such cases, the overall purpose of these Guidelines shall be accommodated to the largest extent possible. These Guidelines do not cover remuneration resolved by the general meeting of shareholders, such as long-term variable compensation programs ("**LTV**").

Objective

These Guidelines aim to ensure alignment with the current remuneration philosophy and practices applicable for the Company's employees based on the principles of competitiveness, fairness, transparency and performance. In particular to:

- attract and retain highly competent, performing and motivated people that have the ability, experience and skill to deliver on the Ericsson strategy,
- encourage behavior consistent with Ericsson's culture and core values,
- ensure fairness in reward by delivering total remuneration that is appropriate but not excessive, and clearly explained,
- have a total compensation mix of fixed pay, variable pay and benefits that is competitive where Ericsson competes for talent, and
- encourage variable remuneration which aligns employees with clear and relevant targets, reinforces their performance and enables flexible remuneration costs.

The Guidelines and the Company's strategy and sustainable long-term interest

A successful implementation of the Company's strategy and sustainable long-term interests requires that the Company can attract, retain and motivate the right talent and can offer them competitive remuneration. These Guidelines aim to allow the Company to offer the members of the Group Management attractive and competitive total remuneration. Variable compensation covered by these guidelines shall be awarded against specific pre-defined and measurable business targets derived from the long-term business plan approved by the Board of Directors. Targets may include financial targets at either Group, Business Area or Market Area level, strategic targets, operational targets, employee engagement targets, customer satisfaction targets, sustainability and corporate responsibility targets or other lead indicator targets.

The Company operates long-term variable compensation programs for the Group Management. These have been approved by the Annual General Meeting ("AGM") and as a result are not covered by these Guidelines. Details of Ericsson's current remuneration policy and how we deliver on our policy and guidelines and information on previously decided long-term variable compensation programs that have not yet become due for payment, including applicable performance criteria, can be found in the Remuneration Report and in Note G2, "Information regarding members of the Board of Directors, the Group management" and Note G3, "Share-based compensation" in the annual report 2019.

Governance of remuneration to Group Management

The Board has established a Remuneration Committee (the "**Committee**") to handle compensation policies and principles and matters concerning remuneration to Group Management. The Board has authorized the Committee to determine and handle certain issues in specific areas. The Board may also on occasion provide extended authorization for the Committee to determine specific matters.

The Committee is authorized to review and prepare for resolution by the Board salary and other remuneration for the President and CEO. Further, the Committee shall prepare for resolution by the Board proposals to the AGM on Guidelines for Remuneration to Group Management at least every fourth year and on LTV and similar equity arrangements.

The Committee has the mandate to resolve salary and other remuneration for the other members of Group Management except for the President and CEO, including targets for short-term variable compensation ("**STV**"), and payout of STV based on achievements and performance.

In order to conduct its responsibilities, the Committee considers trends in remuneration, legislative changes, disclosure rules and the general global executive remuneration environment. It reviews salary survey data, Company results and individual performance before preparing salary adjustment recommendations for the President and CEO for resolution by the Board and before approving any salary adjustments for the other members of Group Management. In order to avoid conflict of interests, no employee is present at the Committee's meetings when issues relating to their own remuneration are being discussed. The President and CEO is not present at Board meetings when issues relating to the President and CEO's own remuneration are being discussed. The Committee may appoint independent expert advisors to assist and advise in its work.

The Chair of the Remuneration Committee along with the Chair of the Board work together with Ericsson's Investor Relations team, striving to ensure that healthy contact is maintained as necessary and appropriate with shareholders regarding remuneration to Group Management.

Overview of remuneration package covered by these Guidelines

For Group Management the remuneration package may consist of fixed salary, short-term and long-term variable compensation (STV and LTV), pension and other benefits.

The table below sets out the key components of remuneration of Group Management covered by these Guidelines, including why they are used, their operation, opportunity levels and the related performance measures. In addition, the AGM has resolved and may in the future decide to implement LTV for Group Management. The ongoing share-based LTV programs resolved by the AGM have been designed to provide long-term incentives for the members of Group Management and to incentivize the Company's performance creating long-term value. The aim is to attract, retain and motivate executives in a competitive market through performance-based share related incentives and to encourage the build-up of significant equity holdings to align the interests of the members of Group Management with those of shareholders. The vesting period under the ongoing share-based LTV programs resolved by the shareholders is three years and vesting is subject to the satisfaction of identified performance criteria. Although LTV is an important component of the remuneration of Group Management, it is not covered by these Guidelines, because these programs are separately resolved by the AGM.

Comments to the table

- 1) For most of the current members of Group Management, the current STV target opportunity is below 50% of the annual fixed salary.
- 2) At present the President & CEO does not participate in STV. The Board has the mandate to decide to include the President and CEO in STV in the future. In doing so the Board shall:
 - determine the STV opportunity for the President and CEO within the ranges mentioned above and in line with the external market practices of the country of employment, keeping the STV opportunity of the other members of Group Management under consideration,
 - reduce the LTV opportunity in relation to the STV opportunity, keeping the total target cash compensation consisting of fixed salary, STV and LTV unchanged.

Should the Board decide to introduce STV for the President and CEO, the details will be disclosed in the Remuneration Report for the relevant year.
- 3) Since most of the current members of Group Management are currently under ITP1 coverage, their pension contributions are currently capped at 30% of pensionable salary and the additional pension contribution for part-time retirement mandated by the local collective bargaining agreement in Sweden.

Alignment of short-term variable compensation with the Company's strategy and criteria for payment

These Guidelines for Remuneration to Group Management have been developed to support alignment of Ericsson's business strategy and long-term interests of members of Group Management with that of shareholders, in particular:

- The targets for the STV shall be set each year either by the Board or the Committee as appropriate for the members of the Group Management. In determining the targets, the Board and the Committee shall take into account Ericsson's focused business strategy, which is built on technology leadership, product-led solutions and global scale, along with internal annual and long-term business plans. Therefore, all members of Group Management shall have one or more Group financial targets derived from the long-term financial targets which amount to at least 40% of the target STV opportunity. At least 75% of the target STV opportunity shall be linked to financial measures. The Board and the Committee, as applicable, may also choose to include other operational, strategic, employee engagement, customer satisfaction or sustainability and corporate responsibility or other lead indicator measures to support the delivery of the business

plan. For certain roles such targets may be supplemented by targets for the relevant Business Area, Market Area or Group Function.

- Maximum pay-out shall be achievable for truly outstanding performance and exceptional value creation.
- At the end of the performance period for each STV cycle, the Board and the Committee shall assess performance versus the measures and determine the formula-based outcome using the financial information made public by the Company for the financial targets. The Board has the discretion to adjust targets and the subsequent outcome in the event that they cease to be relevant or stretching or to enhance shareholder value. Adjustments shall normally only occur in the event of a major change (e.g. an acquisition or divestment) and shall be on the basis that the new target shall be no more or less difficult to achieve.

Consideration of remuneration offered to the Company's employees

When developing these Guidelines, the Board and the Committee have considered the total remuneration and employment conditions of the Company's employees by reviewing the application of Ericsson's remuneration policy for the wider employee population to ensure consistency.

There is clear alignment in the remuneration components for the members of Group Management and the Company's employees in the way that remuneration policy is applied as well as the methods followed in determining fixed salaries, short-term and long-term variable compensation, pension and benefits, which are to be applied broadly and consistently throughout the Company. The targets under short-term variable compensation are similar and the performance measures under long-term variable compensation program are the same for the members of Group Management and other eligible employees of the Company. However, the proportion of pay that is linked to performance is typically higher for Group Management in line with market practice.

Employment contracts and termination of employment

The members of Group Management are employed on permanent rolling contracts. The maximum mutual notice period is no more than 12 months. In case of termination by the employee, the employee has no right to severance pay.

In any case, the fixed salary paid during the notice period plus any severance pay payable will not together exceed an amount equivalent to the individual's 24 months fixed salary.

The employee may be entitled to severance pay up until the agreed retirement age or, if a retirement age has not been agreed, until the month when the employee turns 65. In a case

where the employee is entitled to severance pay from a date later than 12 months prior to retirement, the severance pay shall be reduced in proportion to the time remaining and calculated only for the time as of the date when the employee's employment ceases (i.e. the end of the period of notice) and until the time of retirement.

Severance pay shall be reduced by 50 percent of the remuneration or equivalent compensation the employee receives, or has become entitled to, from any other employer or from his/her own or other activities during the period that severance is paid to the employee by the Company.

The Company shall have the right to terminate the employment contract and dismiss the employee with immediate effect, without giving any advance notice and entitlement to severance pay, if the employee commits a serious breach of his/her obligations towards the Company.

Normally disputes regarding employment agreements or any other agreements concerning the employment of the members of Group Management, the way such agreements have been arrived at, interpreted or applied, as well as any other litigation proceedings from legal relations based on such agreements, shall be settled by arbitration by three arbitrators in accordance with the Rules of the Arbitration Institute of the Stockholm Chamber of Commerce. Irrespective of the outcome of any arbitral award, the Company may, in the relation between the parties, carry all fees and expenses charged by the arbitrators and all of its own litigation costs (including attorney's fees), except in the event the arbitration proceedings were initiated by the employee without reasonable cause.

Recruitment policy for new members of Group Management

In determining the remuneration of a new member of Group Management, the Board and the Committee shall take into consideration all relevant factors to ensure that arrangements are in the best interests of the Company and its shareholders. These factors include:

- The role being taken on.
- The level and type of remuneration opportunity received at a previous employer.
- The geography in which the candidate is being recruited from and whether any relocation allowance is required.
- The skills, experience and caliber of the candidate.
- The circumstances of the candidate.
- The current external market and salary practice.
- Internal relativities

**Additional arrangements**

By way of exception, additional arrangements can be made when deemed appropriate and necessary to recruit or retain an individual. Such arrangement could be in the form of short-term or long-term variable compensation or fixed component and can be renewed, but each such arrangement shall be limited in time and shall not exceed a period of 36 months and twice the annual fixed salary that the individual would have received if no additional arrangements were made. In addition, if appropriate, different measures and targets may be applied to the new appointment's incentives in the first year.

In addition, it may on a case by case basis be decided by the Board and the Committee respectively to compensate an individual for remuneration forfeited from a previous employer during recruitment. The Board and the Committee will consider on a case by case basis if all or some of the remuneration including incentives forfeited need to be 'bought-out'. If there is a buy-out of forfeited incentives, this will take into account relevant factors including the form they were granted (cash vs. shares), performance conditions attached to these awards and the time they would have vested/paid. Generally, buy-out awards will be made on a comparable basis to those forfeited.

In the event of an internal candidate being promoted to Group Management, legacy terms and conditions may be honored, including pension and benefit entitlements and any outstanding incentive awards. If a Group Management member is appointed following a merger or acquisition with/of another company, legacy terms and conditions may also be honored for a maximum period of 36 months.

Board of Directors' discretions

The Board upon recommendation from the Committee may in a specific case decide to temporarily deviate from these Guidelines in whole or in part based on its full discretion in unusual circumstances such as:

- upon change of the President and CEO in accordance with recruitment policy for new members of Group Management,
- upon material changes in the Company structure, organization, ownership and business (for example takeover, acquisition, merger, demerger etc.) which may require adjustments in STV and LTV or other elements to ensure continuity of Group Management, and
- in any other circumstances, provided that the deviation is required to serve the long-term interests and sustainability of the Company or to assure its financial viability.

The Committee is responsible for preparing matters for resolution by the Board, and this includes matters relating to deviations from these Guidelines. Any such deviation will be disclosed in the Remuneration Report for the relevant year.
