

LTV 2016 IN BRIEF

This document contains information on the Board of Directors of Telefonaktiebolaget LM Ericsson's proposal to the Annual General Meeting on April 13, 2016 for implementation of an all-employee Stock Purchase Plan, a Key Contributor Retention Plan and an Executive Performance Stock Plan and, under each plan respectively, transfer of treasury stock.

The Board's complete proposal is available at the company and on the company's website, www.ericsson.com, from March 10, 2016 and will be sent to shareholders upon request.

LONG-TERM VARIABLE COMPENSATION PROGRAM 2016 (LTV 2016)

The LTV program is an integral part of the Company's remuneration strategy, in particular the Board of Directors wishes to encourage all employees to become and remain shareholders and the leadership to build significant equity holdings. Following the Board of Directors' annual evaluation of total remuneration and ongoing programs it proposes to make no changes to the structure of Ericsson's Long-Term Variable Compensation Program.

The program is based on the following key principles:

- > All employees are invited to participate
- > Individual investments in Ericsson shares are required
- > Executives have performance criteria for additional share awards

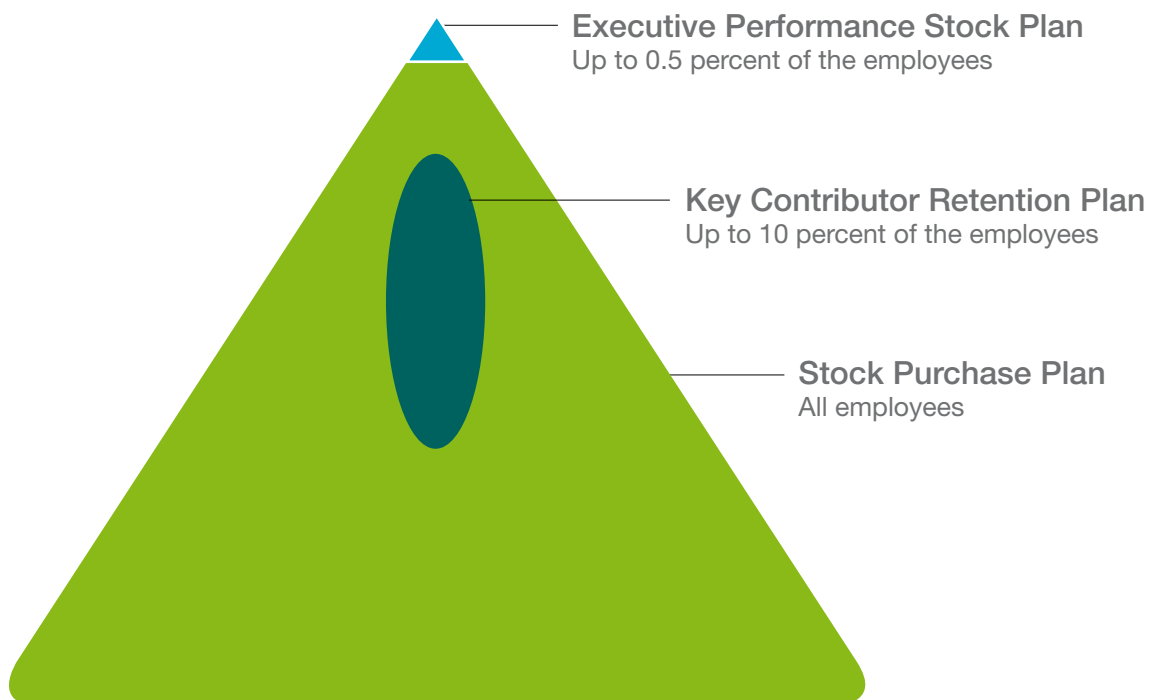

ONE PLATFORM – THREE PLANS

The LTV 2016 is a share-based remuneration program based on a common platform consisting of three plans.

The three plans have different aims and different target groups:

- > A Stock Purchase Plan designed to create an incentive for all employees to become shareholders
- > A Key Contributor Retention Plan to ensure long-term retention of top talent individuals
- > An Executive Performance Stock Plan offered to a defined group with the aim of attracting, retaining and motivating them

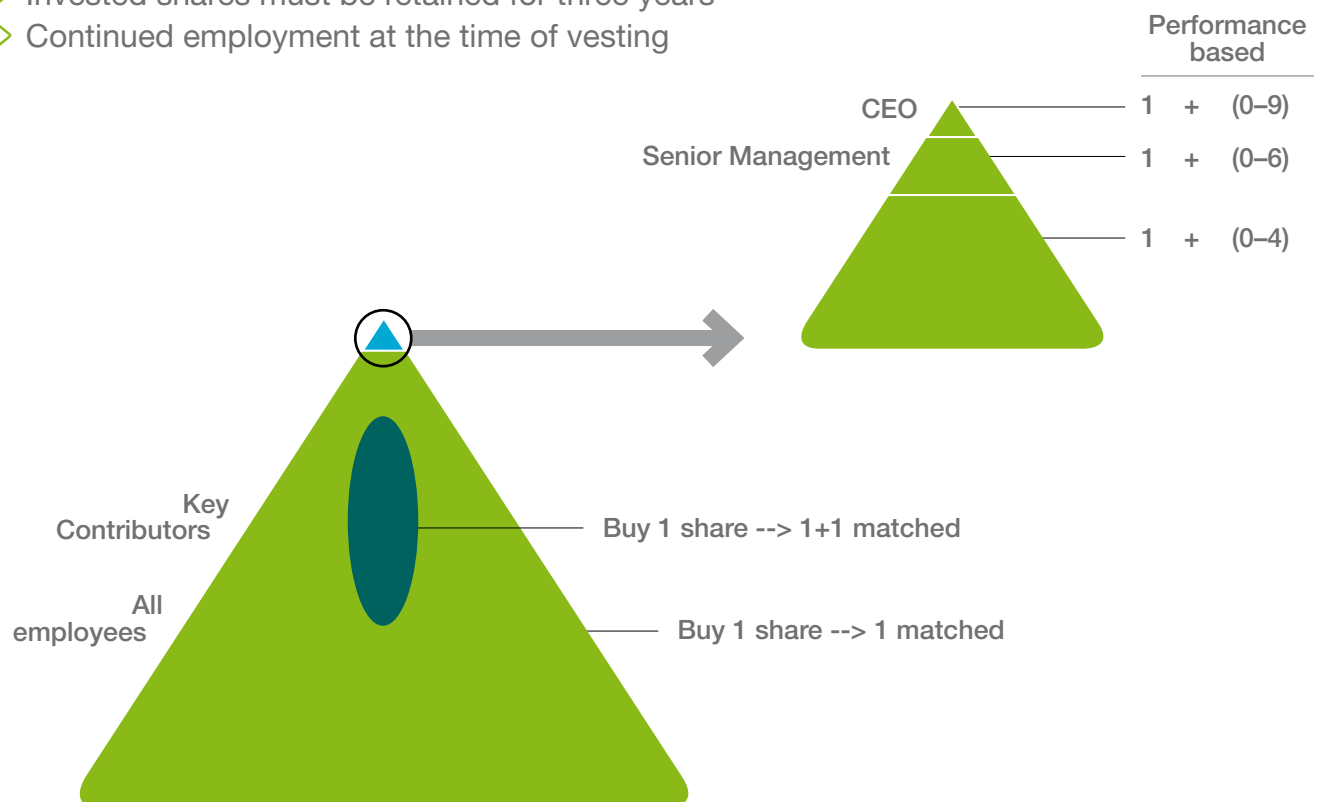

OVERVIEW OF THE PROGRAM

The program is based on matching shares. Every employee is offered the opportunity to save part of his or her gross salary to invest in Ericsson shares. For each share invested, matching shares are awarded when certain criteria are met. The number of shares granted differs among the three plans.

The base criteria are:

- > Up to 7.5 percent of fixed salary (CEO: 10 percent of fixed and short term variable remuneration) may be saved for investment in Ericsson shares
- > Invested shares must be retained for three years
- > Continued employment at the time of vesting

- > One matching share awarded for each share invested under the Stock Purchase Plan for all employees
- > One extra matching share under the Key Contributor Retention Plan
- > Up to 4/6/9 extra matching shares under the Executive Performance Stock Plan if the performance criteria are met

For details, see descriptions below of each plan and the complete proposal.

STOCK PURCHASE PLAN

All employees are invited to participate in the Stock Purchase Plan. The plan is designed to create an incentive for all employees to become shareholders with the aim of securing commitment to long-term value creation throughout Ericsson.

During a twelve-month period from the implementation, employees who participate can save up to 7.5 percent of their gross salary and use it for investment in Ericsson shares. If the invested shares are retained for three years and the individual remains employed, the employee will be awarded a corresponding number of shares free of consideration.

Participation requires that it is legally possible as well as within reasonable administrative costs according to the assessment of Ericsson.

KEY CONTRIBUTOR RETENTION PLAN

The Key Contributor Retention Plan is part of Ericsson’s talent strategy and is designed to ensure long-term retention of top-talent individuals with critical skills vital to Ericsson’s future performance.

Up to ten percent of the company’s employees are defined as “key contributors”, based on a rigorous selection process incorporating elements such as individual performance, critical skills and future potential.

In addition to the regular matching of the Stock Purchase Plan, key contributors are offered one additional share, free of consideration.

EXECUTIVE PERFORMANCE STOCK PLAN

The Executive Performance Stock Plan is designed to encourage a long-term value creation, in alignment with shareholders' interests. The plan is offered to a defined group of senior managers, up to 0.5 percent of the total employee population. The aim is to attract, retain and motivate executives in a competitive market through performance-based share related incentives and to encourage the build-up of significant personal equity stakes.

EXECUTIVE PERFORMANCE STOCK PLAN

(CONTINUED)

This plan is strictly performance-based. Since 2011, the performance measures have been Net Sales Growth, Operating Income Growth and Cash Conversion in order to reflect the business strategy and long term value creation of the Company. It is proposed that the Executive Performance Stock Plan 2016 shall have the same performance criteria for the period 2016–2018.

	Base Year 0	Year 1	Year 2	Year 3	
Growth		Compound Annual Growth Rate of 2 to 6% Net Sales Growth			Up to one third of the award will vest if the compound annual growth rate of consolidated net sales is between 2 and 6 percent comparing 2018 financial results to 2015, which corresponds to consolidated sales of SEK 262 billion and SEK 294 billion for the financial year 2018.
Margin		Compound Annual Growth Rate of 5 to 15% Operating Income Growth			Up to one third of the award will vest if the compound annual growth rate of consolidated operating income is between 5 and 15 percent comparing 2018 financial results to 2015, which corresponds to operating income of SEK 25 billion and SEK 33 billion for the financial year 2018. *)
Cash flow		70% Cash Conversion	70% Cash Conversion	70% Cash Conversion	Up to one third of the award will vest if cash conversion is at or above 70 percent during each of the years 2016–2018, vesting one ninth of the total award for each year the target is achieved. *)

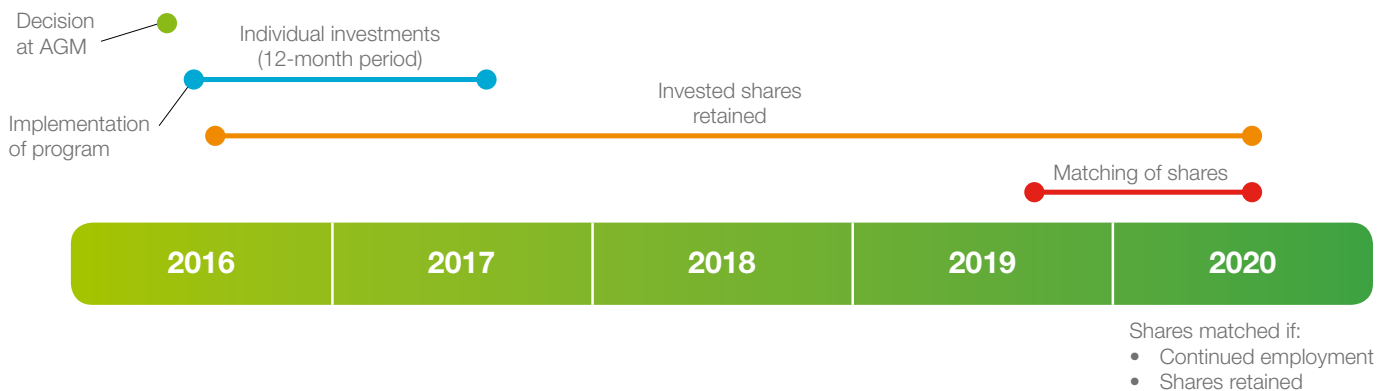

Before shares are awarded under the Executive Performance Stock Plan, the Board of Directors conducts a fairness check. The Board of Directors reserves the right to reduce the number of awarded shares based on certain conditions such as Ericsson's financial results, performance in relation to competitors and other circumstances. The Board of Directors will consider, in particular, the impact of larger acquisitions, divestitures, the creation of joint ventures and any other significant capital event on the three targets on a case by case basis.

*) Extraordinary restructuring charges from the cost and efficiency program announced in November 2014 shall be excluded. When excluding these extraordinary restructuring charges from year 0 (2015 financial year), the consolidated operating income range is between SEK 29 billion and SEK 38 billion for the financial year 2018.

A LONG-TERM HORIZON

STOCK PURCHASE & KEY CONTRIBUTOR RETENTION PLANS

Shares begin to vest after three years

EXECUTIVE PERFORMANCE STOCK PLAN

Performance test: 3-year Net Sales Growth, Operating Income Growth and Cash Conversion

FINANCING

The Board of Directors has considered different financing methods for transfer of shares to employees under the LTV 2016, such as transfer of treasury stock and an equity swap agreement with a third party. The Board of Directors considers that a directed issue of C-shares, followed by buy-back and transfer of treasury stock is the most cost efficient and flexible method to transfer shares under the LTV 2016.

The Company's current holding of shares in treasury is not sufficient for the carrying out of the LTV 2016. Therefore, the Board of Directors proposes a directed share issue and buy-back of shares. Under the proposed transactions 26.1 million shares in total are issued at the ratio value (SEK 5) to subscribers who have agreed to sell the new shares to the company as soon as the shares have been subscribed for and registered¹⁾. As compensation to the subscribers for their assistance with the issuance and buy-back, the Company will pay to each of the subscribers an amount totaling SEK 100,000 each, corresponding to less than 0.8 öre (SEK 0.008) per new issued and re-purchased share.

Following the acquisition of all shares of series C, these shares will be converted into shares of series B, in accordance with the Articles of Association, thereafter to be transferred according to the proposals.

The administration cost for transfer of shares by the alternative way of an equity swap agreement is estimated to approximately SEK 55 million.

¹⁾ The shares issued are C-shares. This class of shares is only used for issuance and buy-back to finance the company's long-term variable compensation programs. When the company has acquired the C-shares, they are converted into B-shares. The reason for using a separate class of shares for the transactions is that an acquisition offer regarding the company's own shares must be directed to all holders of the shares in the class, and thus A-shares or B-shares cannot be used.

COSTS AND DILUTION

The total effect on the income statement of the LTV 2016, including financing costs, is estimated to range between SEK 1,525 million and SEK 2,262 million unevenly distributed over the years 2016–2020. The costs can be compared with Ericsson’s total remuneration costs 2015, including social security fees, amounting to approximately SEK 80 billion.

The 26.1 million shares required to implement the LTV 2016 correspond to approximately 0.8 percent of the total number of outstanding shares.

VOTING AND MAJORITY RULES

The proposal gives the shareholders the opportunity to vote for the respective plan and its financing.

Resolutions for each of the three plans	Majority requirement
1. Implementation of the plan	More than 50% of the votes cast at the General Meeting
2. Financing of the plan with treasury stock > directed new issue of shares and acquisition offer > transfer of treasury stock to employees > transfer of treasury stock on an exchange	At least 90% of the votes cast as well as the shares represented at the General Meeting
Only if the required majority under 2. is not reached 3. Financing of the plan by an equity swap agreement	More than 50% of the votes cast at the General Meeting
