ERICSSON TECHNOLOGY IN YOUR PHONE

We do everything on our phones: from looking for love to searching for the nearest supermarket. We can download songs and watch HD videos in the blink of an eye. Thanks to Ericsson technology, we can do this, and much, much more.

Ericsson enables many of the everyday activities we take for granted and ensures new players can enter the marketplace. Ericsson has more than 37,000 patents worldwide and has signed more than 100 licensing agreements, ensuring other companies benefit from our innovations. We are committed to enhancing technology as we move into the Networked Society.

ERICSSON TECHNOLOGY IN YOUR PHONE

AWAY WE GO

Location-based apps to find your phone, and enable the “Is it ok if our app uses your location?” feature.

LET THE GOOD TIMES SCROLL

The ability to scroll through content on your phone using the touchscreen.

LIFE IS BUT A STREAM

4G/LTE technology enables rapid downloads and large data transfers.

MIRROR MIRROR

Managing video and media content on streaming devices from your phone.

REMOTE CONTROL

The control of things like speakers via Bluetooth from your phone.

SHUTTING IT DOWN

Enables sleep mode so you don't drain your battery or dial by mistake.

VERY IMPORTANT PACKAGE

Compressing the vital parts of voice, media and data, and sending them in real-time, for a great user experience.

LIVE WITHOUT DISRUPTIONS

Ensuring a seamless handover when you're on the move and the network changes rapidly, so you can continue with what you were doing, unaffected.

We are a world leader in the rapidly changing environment of communications technology – providing equipment, software and services to mobile and fixed network operators all over the globe.

Some 40 percent of global mobile traffic runs through networks we have supplied, and we manage networks that serve more than 1 billion subscribers globally every day. With more than 37,000 granted patents, we have one of the industry's strongest patent portfolios.

Our vision is a Networked Society where every person and every industry is empowered to reach their full potential.
